

COMPUTYPE

Labels Built for Every Application, Everywhere

Helping you ensure samples and products are labeled,
tracked, and scanned flawlessly every time.

We label what others can't.

Our customized labels have been developed to survive any condition, stay secured to any surface, and offer perfect clarity every step of the way.

With our trusted solutions, tailored to the items you need to track, you can optimize your workflow, reduce waste, and maximize efficiency.

Labels for any environment.

Whatever condition your labels are required to withstand, our solutions are engineered and customized to survive and perform, in any condition.

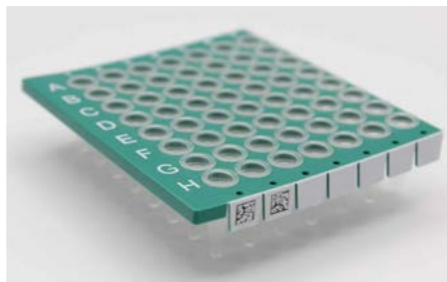

Cold Storage Labels

Our labels are engineered to withstand extreme temperatures, moisture, frost, and even liquid nitrogen without losing adhesion or readability.

Chemical Resistant Labels

Labels that are engineered to protect vital information on products exposed to solvents, acids, and other substances.

Precision Labeling

Where conventional methods aren't effective, we'll design a solution to label the smallest surface accurately and efficiently.

Labels for any application.

Solve your most complex tracking challenges with our custom label solutions, engineered to survive any environment, and perform every time.

Custom Labels

Custom barcode labels designed for your unique requirements.

Blank Labels

Precision-cut for consistent application and optimized for use with your printer.

Applicators

Applicators designed for improved speed, precision label placement, and workflow efficiency.

Barcode Label Printers

Thermal transfer barcode printers for a wide range of applications.

Engineered for your application.

Not all labels are created equally. For nearly 50 years, we have been engineering customized solutions for solving labeling challenges that others can't. If there's a way to label something, our experts will find it.

Engineered labels

Precision die cutting

High throughput auto-dispensing

Sample production & verification

Material engineering

We can label for you.

Our **Labware Prep™ Services** save you time and eliminate errors by pre-barcoding, pre-marking, and meticulously preparing your labware.

Add Your Brand Logo

Custom Sequencing

Add a Barcode or 2D Code

Add up to 3 Lines of Text

Add Any Color

Add a Fill Line to the Tube

Tare Weighing

Filling & Capping

Packaging, Kitting, & Sorting

Why choose Computype?

We've spent the last 50 years providing label solutions tailored to your specific applications.

With our unique blend of experience and expertise, we produce labels that perform under pressure, optimizing your workflow and solving your most pressing pain points.

- ISO-90001 quality system
- Compliance support with FDA, GHS, GMP, GLP
- Barcode verification vision systems

- ISO Class 7 clean room production environment
- Matched label & ribbon kitting in-line with application requirements
- High speed label application

- Partner in sustainability - Ecovadis scorecard, SBTi registered
- Nose free production environment
- Local on-site support and application evaluation

WE'D LOVE TO HEAR FROM YOU.
